

OIX Economics of Identity II

Odd Erling Håberget | Managing Director

 bankID™

The History and Background

- The objective
- The stakeholders
- The National governance model

The BankID solutions and services

- The roaming solution
- The SIM solution
- The services

The Digital Norwegian Market

- The users
- The relaying parties
- The transactions

Collaboration vs competition

- Mutual recognition among the banks
- Common BankID Infrastructure
- The governance

Fighting Fraud with BankID

- Norwegian banks pool resources
- Compromised credentials are disabled
- Intelligence to prevent fraud is distributed through the single BankID system and a common FinanceCERT.
