Keynote Presenters & Panel Moderators

Bryn Robinson-Morgan

Bryn has worked at the forefront of digital transformation and consumer led innovation for over 20 years. A key influencer for how people interact in the digital age, he has redefined the customer experience for trusted interactions; helping major organisations evolve their customer architectures through the use of digital identity.

Chris Burt

Chris Burt is the managing editor and an industry analyst at Biometric Update. He has also written nonfiction about information technology, dramatic arts, sports culture, and fantasy basketball, as well as fiction about a doomed astronaut. He lives in Toronto.

Chris Lewis

Head of Solutions, Synectics Solutions

Leads Synectics Solutions pioneer R&D team, consultancy team, and ventures into new markets and new territories. Local SME for Digital ID, the Digital Identities and Attributes Trust Framework, and our new GPG45 Attribute Service Provider solution.

Chris' main focuses are around Digital ID, public/private sector interoperability, machine learning, enterprise risk management and collaborative data/intelligence sharing. Chris is Synectic's representative on the OIX board and is also currently OIX's treasurer.

Don Thibeau

Vice Chair, OIX

Don is the Executive Director of the OpenID Foundation, a non-profit, international standards development organization of individuals and companies committed to enabling, promoting and protecting open source identity technologies. The Foundation's membership includes leaders from across the globe, industry sectors and governments that collaborate on the development, adoption and deployment of open identity standards. Formed in June 2007, the Foundation serves as a public trust organization representing an international community of developers, platform providers, and governments providing needed infrastructure and leadership in promoting and supporting expanded adoption of OpenID Connect, the Financial Grade API and other standards.

Geraint Rogers

Identity & Risk Services SME – Daon

Geraint has 30 years experience leading and collaborating within Product, Strategy, Delivery and Transformation disciplines. He believes strongly in agile, customer centric propositions that give tangible results.

Geraint has worked within both Scale Ups and Major International Corporate environments building a strong collaborative industry network and giving him the experience of dealing with internal and external stakeholders at all levels. He believes in a collective set of goals, delivered with the end user or outcome in mind and then executed together. He loves seeing outcomes delivered and having grown and developed personally in the process.

Jen Rodvold

Head of Ethics & Sustainability Consulting

With over 16 years' experience designing and delivering ESG programmes, including 14 in the technology sector, Jen leads Sopra Steria's Digital Ethics, Sustainability & Social Impact Consulting Practice, a team of responsible business and technology experts helping businesses create value through ESG and purpose. In her 12 years with Sopra Steria, Jen has helped clients in the private and public sector create social impact and improve environmental sustainability through data and technology.

Joseph Heenan

Board Member OWF & CTO, Authlete

Joseph is a software engineer & architect with over 25 years' experience, who started writing mobile apps before mobile apps existed and has a keen interest in all the technical aspects of digital identity. He's a board member at OpenWallet Foundation, CTO at Authlete and Certification Lead at OpenID Foundation.

Louise French

Strategy Director, The Future Laboratory

Louise is one of the lead strategists at The Future Laboratory. With over 12 years' experience in brand and innovation strategy, she works closely with clients such as Dell, Sony, Selfridges and Gulfstream to identify inspiring and revolutionary opportunities for change, and to develop practical strategic frameworks that provide the blueprints for putting the future first.

Keynote Presenters & Panel Moderators

Mags Moore

OIX Chair,

Mags Moore has been working in the problem-solving IT industry for 30+ years, supporting the transformation of public services.

Mags is part of the leadership team for Sopra Steria's Government and Transport business. One of Mags' focus areas is driving the streamlining of identity verification across government and commercial organisations.

Marie Austenaa

Head of Digital Identity, VISA; Board Chair of Open Wallet Foundation

Marie Austenaa leads Digital Identity in Europe for Visa. She has worked in digital identity since 2014, when she led GSMA's global programme on Digital Identity for mobile operators around the world and later at Signicat – one of the leading digital identity service providers in Europe. Prior to this, Marie has held leadership roles at Telenor and Vodafone to develop new digital services. Marie currently serves as the Board Chair for the Open Wallet Foundation (Linux Foundation).

Nat Sakimura

Chair Open Identity Foundation (OIDF)

Nat Sakimura is a well-known identity and privacy standardization architect and serves as the Chairman of the Board of the OpenID Foundation and a Digital Special Advisor to the Japan Fair Trade Commission. Besides being an author/ editor of widely used standards in the field of digital identity and privacy, he helps communities organize themselves to realize the ideas around identity and privacy.

Nick Mothershaw

OIX Chief Identity Strategist

Nick has an expert knowledge of the Identity industry; its' challenges, requirements and solutions spanning a variety of different sectors (e.g. government, finance, age related); and using different ID techniques from D2C2B Digital ID to B2B ID Services.

He has over 30 years' experience in strategic innovation and is renowned for finding practical ways to drive real change by bringing new ideas and products to market.

Nick was previously Director of ID and Fraud solutions at Experian where he was responsible for the strategic development of Experian's fraud and identity solutions for both the public and private sectors. Prior to that Nick was a director of a company providing global solutions within the broader Criminal Justice arena and he has also worked for IBM in the healthcare and utilities sector. He has a degree in Computer Science.

Paul Scully

MP

Paul Scully is the Conservative MP for Sutton and Cheam, and has been an MP continuously since 7 May 2015. He currently holds the Government post of Parliamentary Under Secretary of State (Minister for Tech and the Digital Economy) at the Department for Science, Innovation and Technology).

Roland Eichenauer

VP Sales and Marketing eID – Nexi Group

Roland Eichenauer is an international sales and business development professional within the Financial industry with a track of +20 years of experience across Europe. In his current position at Nets he is leading the Business Development team for Digital Identity, Value Added, and Trusted Services - offering outstanding Digital Identity solutions and Value Added Services for remote digital onboarding by Identification, Authorising, Authentication, and Signing in European territories.

Steve Pannifer

CEO, Consult Hyperion

Steve is CEO at Consult Hyperion. He has extensive experience advising payment networks, banks, governments and vendors around the world on digital identity strategy, fraud prevention, AML and privacy. Steve has worked on several groundbreaking digital identity programmes – both public and private sector led. He is active in the industry as a speaker and contributing to trust framework development.

Stuart Young

MD Etive Technologies

Stuart is MD of Etive and has been developing identity trust schemes since 2013. In 2013 Etive worked with the Government Digital Service on an assured digital identity scheme for thin file people through the GOV.UK/verify scheme.

In 2019 Etive started developing the digital identity trust scheme for the home buying and selling sector, known as MyIdentity. MyIdentity is aligned with the Dept Science, Innovation & Technology - Digital Identity & Attributes Trust Framework (DIATF).
